Timeless

Collection

Invented, designed and produced in Norway since 1952

Fibo was the first to make the 'click' system for walls.

Starting out quite modestly in a small factory in Southern Norway, today we operate a multi-million pound award winning factory producing panels for over 100,000 bathrooms a year.

We are now the leading supplier of plywood waterproof wall panel systems across Europe.

Fibo system in a nutshell

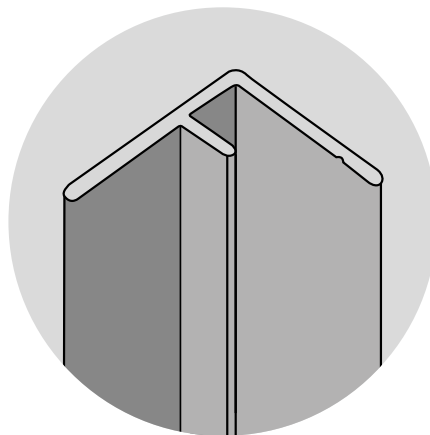

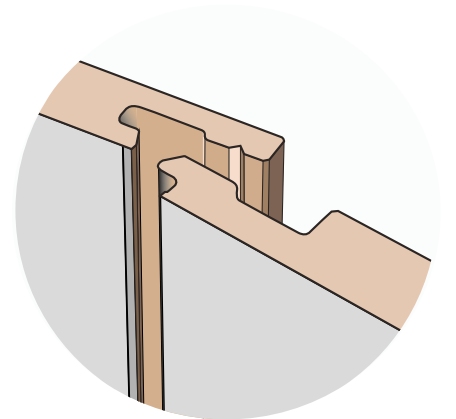

Fibo's wall system is a fully watertight solution that consists of wall panels, profiles and accessories.

The system does not require plaster, vapour barriers or grouting.

Walls

The Fibo panels are made from a high-pressured laminate surface, seven layered plywood core and enhanced moisture barrier. All panels are supplied with our unique Aqualock system and are easy to fit.

The panels can be screwed directly into studs or glued to existing walls. This means you have no need for backing boards or chipboard. The system does not require plaster, vapour barriers or grouting.

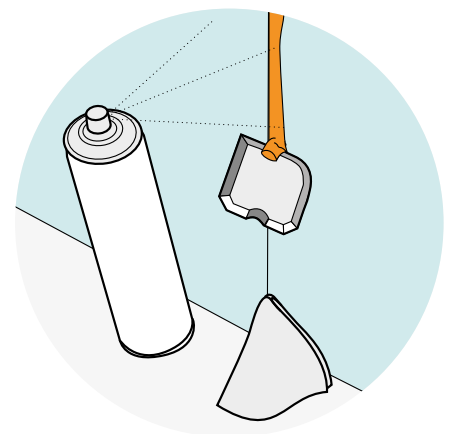

Profiles

We have a range of profiles specially adapted to make the system 100% waterproof.

Accessories

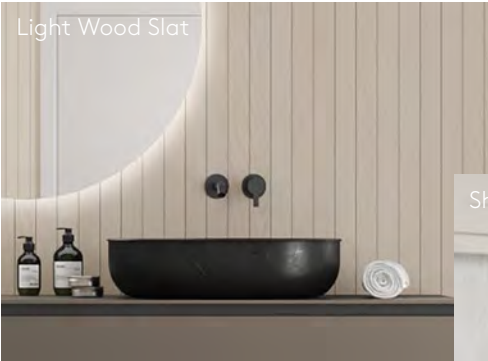

Our range of accessories provide everything needed to easily install and maintain the system. Provided that the wall panels are correctly installed, we provide a 25-year warranty on our panels.

Elevating your spaces easily

Create your ideal designed room with our waterproof wall system. Our stunning designs allow you to create the perfect mood from a selection of colours and finishes including marbles, stones and woods in tile and plain panel patterns.

Light Wood Slat

Try our new slat effect, for that spa like space.

White Marble

Create a Scandinavian space with our neutral decors

Our natural stones are always a hit in creating a serene kitchen & bathroom feel.

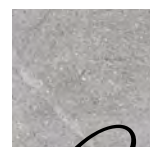

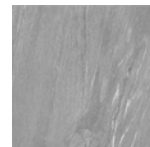

Shabby Chic

Go back to nature with our new woods and stones.

Warm it up with hues of olive green.

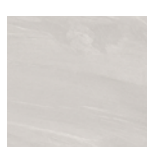

Calm

Denver White

Tip: you don't have to stop at colour to create a feature wall. Zone your shower to create a feature point in your space.

Create a traditional space with our various tile patterns

Olive Green Straight Herringbone

Refresh your kitchen easily. With our panels you can fit them to existing tiles for a quick uplift.

Traditional

We have plain white tiles with white and black grout lines, both offering the opportunity to mix and match with other decors.

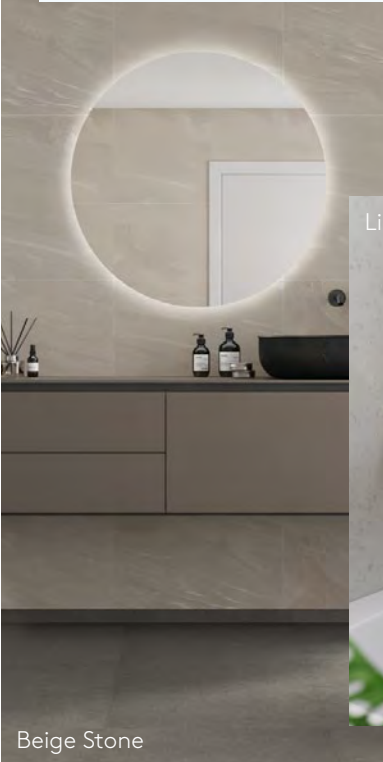

Warm Grey

Update your space with our bold decor colours for a modern, boho style

Deck out your space with the latest trending tile patterns – herringbone and metro brick in a range of colours suited to your palette.

Modern

Beige Stone

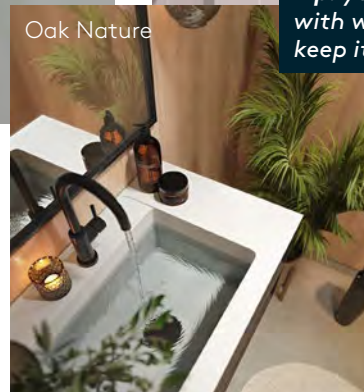

Light Terrazzo

Dusky Pink

Tip: you don't have to go with white when trying to keep it light in a small space.

Oak Nature

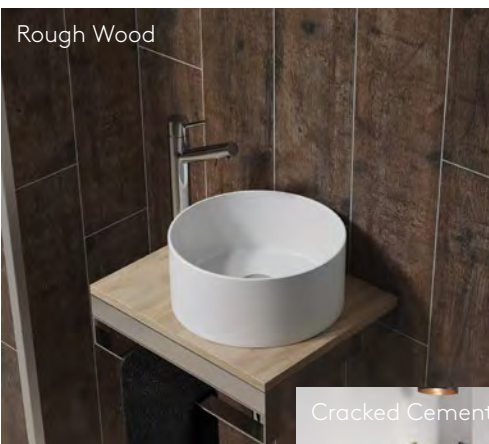

For a bolder look, match our natural panels with a pop of colour from our Contemporary or Signature collection.

Our panels can fit every bathroom, whether you have free standing furniture or would like to wrap tiles around the bath.

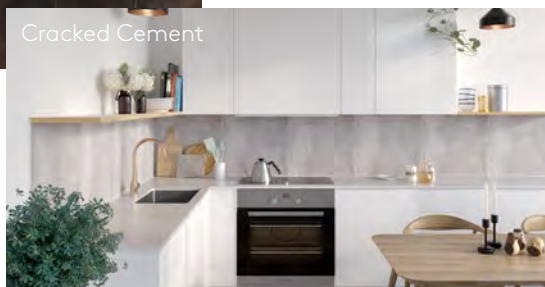

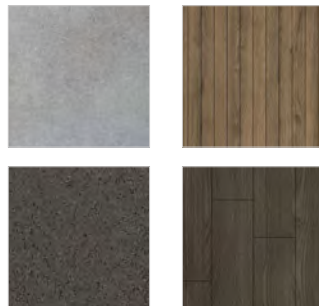

Industrial

Tip: to help create the illusion of a tall ceiling in a small room, go for designs like the chevron. The vertical lines create the perception of taller walls.

Rough Wood

Cracked Cement

Create a warm rustic feel in your space using our wood, concrete and cement decors

Moonstone Chevron

Try a half wall with our new moonstone decor to enhance your walls.

Style guide

Create the perfect space by selecting your favourite decor or mix and match panels and profiles to create a design that is uniquely yours.

We've carefully selected our favourite combinations to help you create your dream bathroom space. How will you pair yours?

Customising your walls...

Step 1

Choose your design style

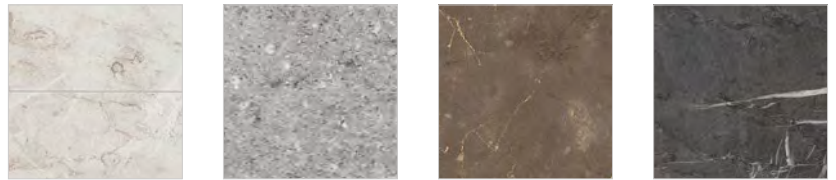

Calm – Scandinavian Tile Effect Collection

We offer a range of neutral colours of woods, stones, cements, marble and plain tile across our different collections to help you create a great Scandinavian space.

Traditional – Marble Collection

Our Marble collection offers you a range of traditional tile and plain options for the classic luxury look.

Modern – Contemporary Tile Effect Collection

Our Contemporary collection offers you a mix of bright and light colours and whites to revamp your space.

Industrial – Urban Tile Effect Collection

Our Urban collection offers you a range of tile patterns both traditional and modern in a range of colours, great to create different moods in a space.

Step 2

Map your room

Why not mix and match decors? You don't need a full wall to create a feature. Using a different panel decor to highlight a shower shelf might be all you need. We've pulled together some decors we think go together.

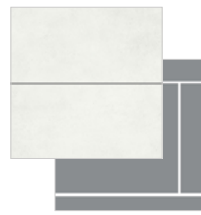

Light Wood Slat & Olive Green

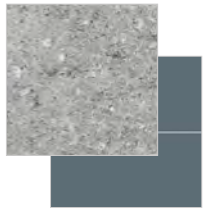

Cracked Cement & Light Sand

Beige Stone & Dusky Pink Elongated Hex

Moonstone & Aberdeen Metro Brick

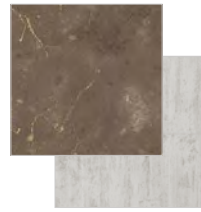

Polished Stone & Dusty Blue

White Marble & Medium Grey

Black Marble & White Straight Herringbone

Brown Marble & Shabby Chic

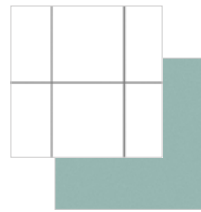

Dusky Pink & Avalon Pine Vertical Plank

Aqua Mint & Light Terrazzo

Light Green & Oak Nature

Denver White Stacked Subway & Aqua Mint

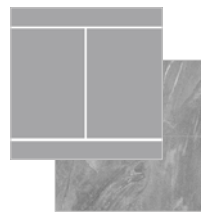

Black Hexagon & Dark Wood Vertical Plank

Moonstone Chevron & Pure Oak Vertical Plank

Rough Cement Hexagon & Dark Terrazzo

Medium Grey Metro Brick & Grey Stone

Step 3

Match your metals

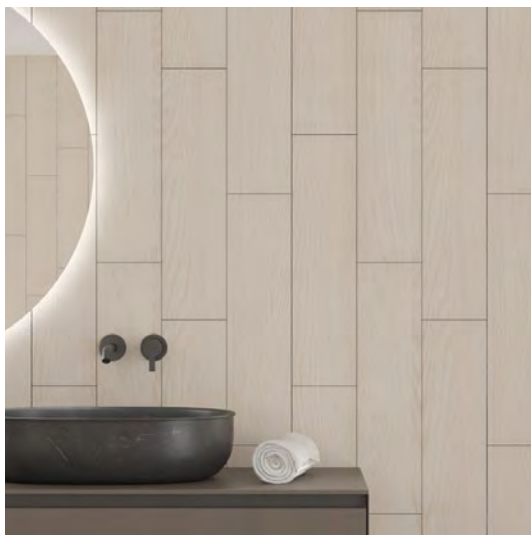

Match your profile and sealant colour to the grout line or your other bathroom fittings.

Or for a bolder look why not try mix and matching your trims?

Scandinavian Tile-Effect Collection

Norwegian heritage

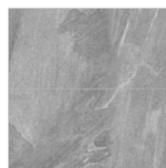

Bang on trend, the Scandinavian range reflects our Norwegian heritage with clean lines and smart tile effects.

Whether you prefer a rustic wood effect, a super-modern industrial look or a warm and cozy haven, this collection has something for everyone and can be styled in line with modern bathroom trends.

Fibo's tile-effect panels are specially produced with realistic grout lines that make them look and feel just like tiles but without the hassle of grout maintenance. Life is too short for cleaning!

Urban Tile-Effect Collection

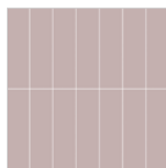

Modern, bold and stylish

Our Urban collection is both modern and stylish. With neat geometric designs such as the Stacked Subway, it is inspired by patterns and shapes found in urban city environments.

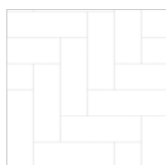

The trendy Metro Brick is now available with a splash of colour as well as the ever-popular white and grey shades. For a bolder statement in the bathroom, why not choose one of our Hexagonal designs now available in stunning Rough Cement. For a smart way to transform your walls, why not try the classic Herringbone or our new Chevron designs?

Signature Collection

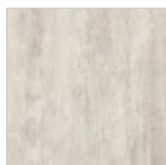

Plain panels that are anything but plain!

Featuring always on-trend industrial styling and a range of natural tones and textures.

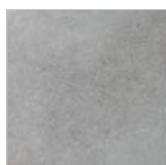

Our industrial plain panels are moody and chic with a nod to the Scandinavian design trend. Our natural tones provide solid colour options whilst our natural textures can add a bit of warmth to your bathroom.

A simple and complete solution

Fibo's wall system is fully watertight and is supplied as a complete solution consisting of wall panels, profiles and accessories.

The system

1. Wall Panels

Composition

Our panels are made from a PEFC- certified seven-layer birch plywood core, a high-pressed surface, and Aqualock tongue and groove joint which is quick and easy to install, creating a 100% waterproof wall panel system for interior walls.

Designed and manufactured in Norway since 1952, creating instant transformations of walls within hours. The system is approved under stringent SINTEF wet room standards in Scandinavia.

High pressure laminate with a 100 % watertight surface

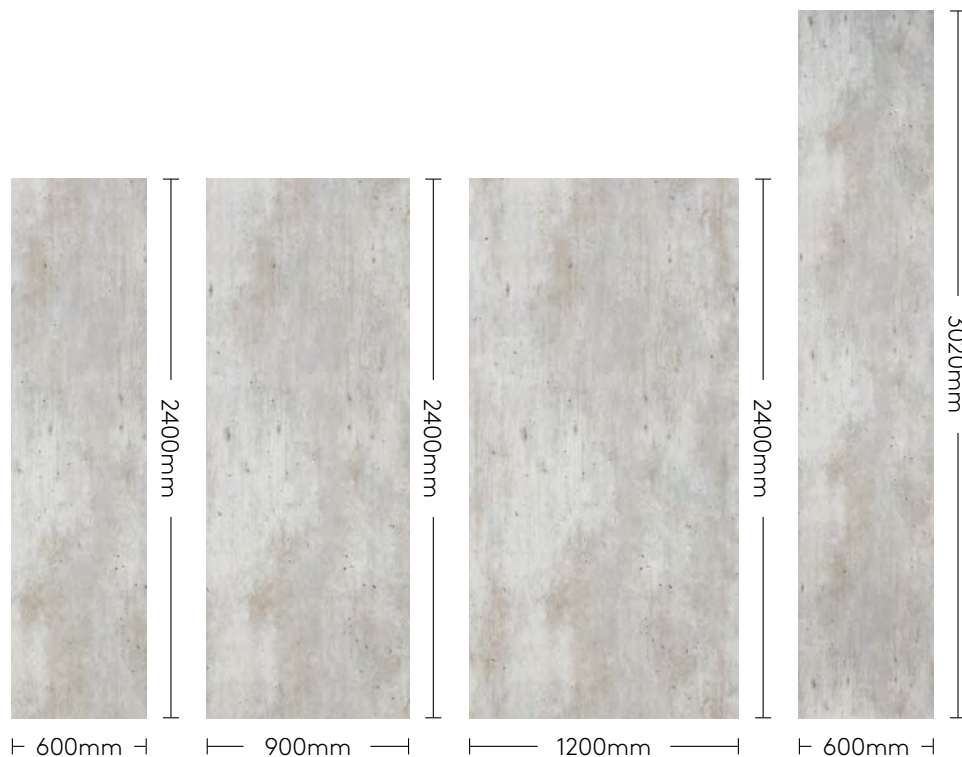

Plywood core

Enhanced moisture barrier

Panel size options

With 2400mm high and 600mm wide wall panels, you can easily cover the wall from floor to ceiling. Some of our panels are also available in 900mm wide with a tongue and groove joint and 1200mm wide in square edge only. As a special order, panels in heights of 3020mm are available for rooms with particularly high ceilings. For more information, please contact the office on 01494 771242 or email sales@fibo.co.uk.

When installing, Fibo panels:

- ✓ Can be easily cut and adapted to your walls, without the mess
- ✓ Can be screwed directly into wooden or metal stud walls, meaning you have no need for backing boards or chipboard
- ✓ Can be glued onto existing wall surfaces, such as tiles or concrete with Fibo adhesive.
- ✓ Dry quickly, making them fast to fit
- ✓ Are durable, as they don't crack during transport, installing or with house movement overtime.

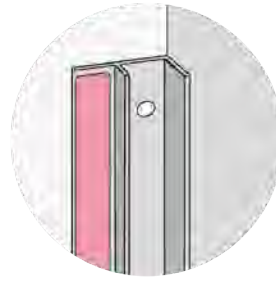

Design your bathroom from our range of tile and non-tile decors, and match it up with our selection of profiles.

The colour and pattern variation can vary from panel to panel. Please make sure you view laminate samples or visit a showroom to ensure you are happy with your choice of decor before purchase.

2. Profiles

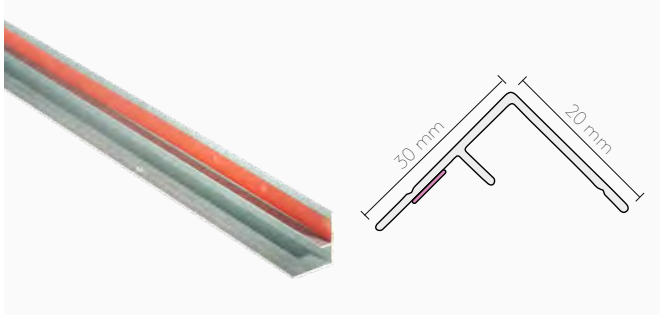

Like our wall panels, profiles also have two purposes. Not only are they there to finish off your beautiful bathroom, our profiles are also specially adapted to make the systems 100% waterproof.

Fibo
top tips

How to best use our profiles

- Use Hidden Internal Corners if you want a seamless room with no metal strips in the corners
- Hide exposed edges with a J or L shape – this really works with half walls.
- Use an L shape for windows and boxing in.

3. Accessories

Our range of accessories completes our system, by providing every fitter with everything they need to install, seal and finish the Wall Panel System to ensure it is 100% waterproof.

Fixing

Click Wax: make it easy fixing the panels in place with the Aqualock joint. Use on male joint only.

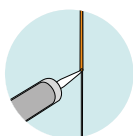

Grips: simplify lifting and fixing of panels in place with our Fibo grips.

Sealing tool: This is a superb multi-use tool. Use it to remove excess adhesive from panel joints and corner strips. Also use for smoothing the adhesive in the corners and around the base profile.

Adhesive: designed and tested in rigorous environments, glue panels to back wall substrates.

Tapping tool: use it in conjunction with two piece internal corner profile.

Sold in box quantities. Please speak to your local stockist for more information or call our sales team on **01494 771242**

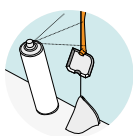

Sealing

Sealant: Specially designed to be used with the Fibo system, our sealant comes in 3 different colours to match your grout lines – black, grey and white.

Sealing tool: Grab that sealing tool again and use it to even out sealant on cut edges and remove excess sealant from panel joints and corner strips.

Cleaning

Wipes: Clean profiles before fixing them in place, using it to remove excess grout during assembly, usually in combination with Fibo Clean.

Cleaning Spray: Use it to remove excess grout during assembly, combined with the Wipes, and cleaning profiles before installation.

Sealing tool: This tool really is useful! Use it to remove or smooth excess sealant.

Magic Sponge: Use it to clean the panels and remove stains.

Watch our instructive installation videos at fibo.co.uk

The benefits of using Fibo

Aberdeen

Code: 0089-M6040

100% waterproof

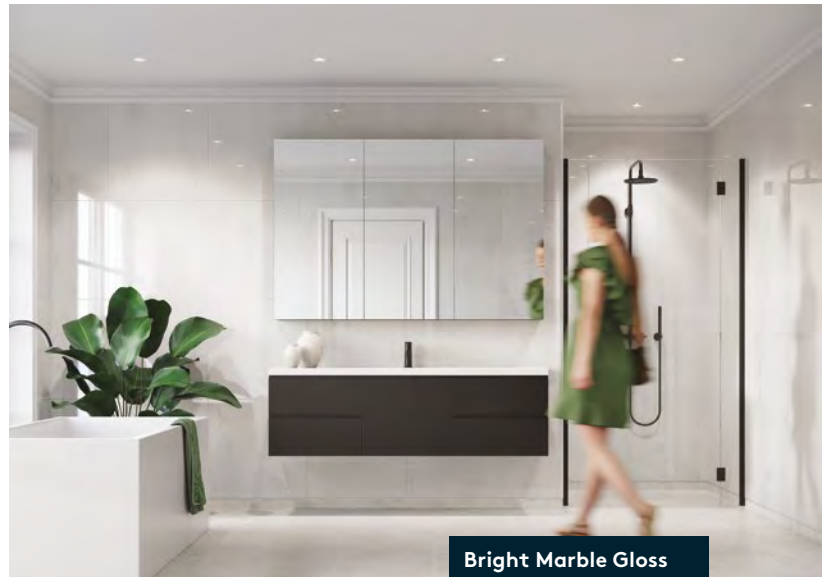

Our Aqualock joint makes Fibo wall systems the perfect choice for both renovations and new builds. Our unique system provides a 100% waterproof surface when used in conjunction with an approved sealant such as Fibo Seal.

25 years
Manufacturer's
Warranty

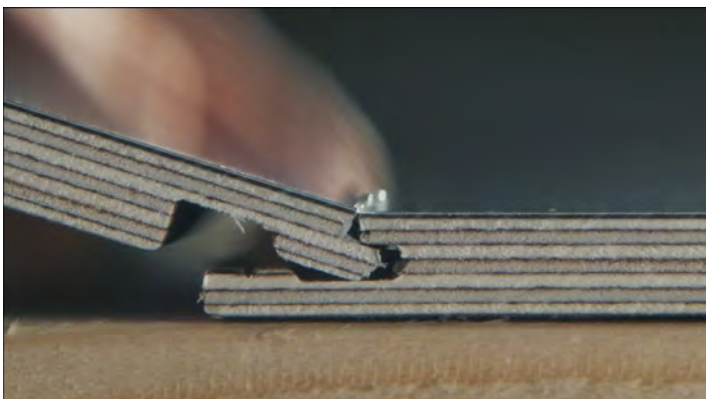

Look and feel like tiles

If you still want the look, feel and effect of tiles without the hassle and mess of grouting, Fibo is the perfect alternative. Some other wall panel manufacturers simply print the grout line onto the panel. However, we choose to carve out the grout line during the manufacturing process in our state-of-the-art factory.

Bright Marble Gloss

Code: 3487-M6060

Precision engineered Aqualock

Our panels are clicked together with the Fibo Aqualock tongue and groove joint which provides virtually invisible join lines. Joining the panels couldn't be easier. Just seal, click and go!

Medium Grey Metro Brick
Code: 4115-M74

Five times faster than tiles

Fibo wall panels are designed to make installation easy and efficient. The wall system can be mounted up to five times faster than tiles and panels can be attached to a timber frame, existing tiles or plasterboard.

Saves you money

Our wall panels are a more cost-effective alternative to tiles because you can save a significant amount of money on labour costs due to the ease of installation. There is no need to wait for tanking or grout to dry so you can install Fibo in a day!

Tried and tested

Tried and tested in Norway for over 70 years, Fibo was the first to make the 'click' system for walls. Starting out quite modestly in 1952 in a small factory, today we operate a multi-million pound award winning factory producing panels for over 100,000 bathrooms a year. We are now the leading supplier of plywood waterproof wall panel systems across Europe.

Good for you and the environment

We only use PEFC-certified renewable plywood, without harmful chemicals, to produce our panels. Independent research confirms that our panels have a 37% lower carbon footprint than tiles when installed in a typical bathroom. To find out more, visit fibo.co.uk.

Certified antibacterial

All Fibo wall panels now come with antibacterial certification. Our panel surfaces contain no harmful substances, require no special maintenance and are tested according to the ISO 22196 standard. This means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without, tile designs.

What next?

Visualise your space:

Visit a local merchant near you to see Fibo in a showroom. Or Visualise the panels and profiles you want in your own bathroom via Virtual Worlds, a cad system, used in a variety of local merchants.

Order a sample from us:

Found a decor you like? Why not ask for a sample to understand its texture, finish and tile pattern.

Instillation Guides:

Visit our website for our step-by-step guide for installation, as well as tips and tricks.

Grey Cement
Code: 2145-M78

FAQ

Can I get a free sample?

Yes of course. Please email us at sales@fibo.co.uk, stating which designs you are interested in.

Can I use Fibo panels on the Ceiling or Floor?

No, Fibo panels are for wall use only.

Can I Attach Wall Mounted Items or Accessories to Fibo Panels?

Yes, you can. Heavy items such as washbasins or towel rails should always have additional support behind the panel.

Which Adhesive and Sealant should I use?

To ensure waterproof results, we recommend using Fibo Adhesive and Fibo Sealant.

Can I install Fibo directly to Plasterboard or Ceramic tiles?

Yes, Fibo panels can be fitted directly onto existing tiles or to plasterboard walls. We would always recommend mechanical fixing, using screws, in the first instance. However, should this not be possible or practical and, provided your walls are sound and straight, you can use just the adhesive to fix Fibo panels to the wall.

Walls built for life

At Fibo we are committed to sustainable development, which drives every decision we make from our raw materials to our manufacturing.

Sustainable sourcing

All our materials are fully traceable, and we publish our Environmental, Social and Governance (ESG) report annually so you can track our progress. Our panels are PEFC-certified renewable plywood, without harmful chemicals, to produce our panels.

Impact on the environment

We continuously strive to reduce our environmental impact. We have reduced our energy consumption during manufacturing, halved the amount of plastic used in packaging and reduced wastage in production. Our factory has the highest environmental standard and is certified according to IOS 14001:2015.

Furthermore, an independent research confirms that our panels have a 37% lower carbon footprint than tiles when installed in a bathroom.
